

## Avon & Somerset Police HQ

### Portishead, Bristol

#### The Project:

A multiple building headquarter campus spanning 22 acres.

#### The Challenge:

Updating an ageing site-wide BMS system to a leading edge, future-proof solution whilst ensuring that the current system's operation and visibility remained complete and uninterrupted.

#### The Solution:

- > Survey, verification, testing and documentation of the BMS communications network. This enabled us to install additional network cabling in order to create a 'mirror' network that would allow the old and new systems to co-exist
- > Offsite engineering of a new BMS to enable rapid changeover from the old system
- > Phased replacement of the new BMS to ensure smooth and continuous operation
- > Incorporation of a site-wide utility metering installation and energy monitoring programme

#### Client:

Avon & Somerset Police HQ

#### Market Sector:

Public Sector & Government

#### Programme:

12 Months

#### Value:

£500,000
